

# HDMI

## HDMI Splitters

This range of HDMI Splitters allows users to display one image from one source to multiple displays at a maximum resolution of 4k x 2k.

Not only does this device split the signal, it has the ability to boost the signal with a maximum input length of 30 metres and a maximum output length of 25 metres.

Please Note: To reach 4k x 2k the connected HDMI cables must be shorter than 5 metres.

This device also supports 3D.

### Specifications
